

Super Recombinant Monoclonal Antibodies, Guaranteed by ABclonal

Not working? “1+1” Guaranteed

If it doesn't work as specified, your purchased antibody will be provided at **no charge**, and you will **receive 1 free replacement antibody** from the **ABclonal Super Monoclonal Antibody** portfolio (500 antibodies in total).

No Charge

Free Replacement

ABclonal Super Monoclonal Antibodies, Encompassing Four Key Research Areas

Neuroscience

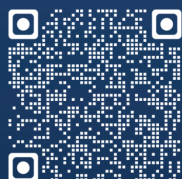

Cell Biology

Epigenetics

Immunology

Why Choose ABclonal

GENESEARCH

Scientifically Recognized

- 75,000+ citations
- 470,000+ cumulative impact factor
- 3 consecutive years on the CiteAb leaderboard

Globally Validated

Why choose ABclonal Super Monoclonal Antibodies?

Built on our proprietary SMab® recombinant monoclonal antibody platform, and validated in collaboration with international authorities such as YCharOS, **ABclonal Super Monoclonal Antibodies** are engineered for exceptional performance across applications.

CLEARER SIGNAL
— HIGHER SPECIFICITY

STRONGER SIGNAL
— HIGH SENSITIVITY

CONSISTENT PERFORMANCE
— HIGH REPRODUCIBILITY

HIGHER VALUE
— MAXIMIZED EFFICIENCY

Terms & Conditions

• Validity & Regions:

Valid from **July 1, 2026 to September 30, 2026**. Applies to selected **ABclonal Super Monoclonal Antibodies** in Australia, New Zealand, Thailand, Singapore, Türkiye, Hong Kong, Taiwan, and South Korea.

• Eligibility:

Only antibodies from the 500 ABclonal Super Monoclonal Antibodies listed on this page and purchased during the promotional period are eligible. Eligible products are clearly marked with the "**ABclonal Super Monoclonal Antibody**" label on the website.

• Non-performance:

Defined as failure to meet datasheet specifications under stated experimental conditions. Claims must include species, sample type (cell/tissue ± treatment), dilution, and representative images.

• Resolution:

If it doesn't work as specified in the product datasheet, your purchased antibody will be provided at **no charge**, and you will **receive 1 free replacement antibody** from the **ABclonal Super Monoclonal Antibody** portfolio (500 antibodies in total).

• Limitation:

Replacement antibody is not eligible for further return, replacement, or warranty services.
